

# Digital One™

Unlock a differentiated digital banking experience

## Custom digital solutions for your financial institution

At FIS, our mission is to deliver secure digital solutions that meet end-customers' financial needs and accelerate digital transformation for our clients. FIS® Digital One™ is a feature-rich, highly configurable digital banking solution designed for large banks and financial institutions. Our comprehensive omnichannel solution provides customers and employees with convenient and consistent experiences across all banking channels, covering self-service and assisted-service. Digital One delivers a comprehensive suite of products that are flexible, configurable and scalable, giving you control of your holistic digital experience today – and for the future.

## What's different about Digital One?

**Single omnichannel platform:** Get all your digital banking needs to support your retail and business customers all from a single, trusted provider, including online and mobile banking, online and banker account open, teller transaction processing, and banker sales and service.

**Low-code development (LCD) tools:** Our flexible and configurable platform allows you to have more control of your holistic digital experience, at the level you desire. Quickly build and deploy applications across iOS, Android and web channels with common experiences.

**Consistent, connected experiences:** Give customers the same experience across all your banking channels. Our omnichannel solutions continuously engage customers, regardless of whether they're completing tasks in a branch, online, or with your call center.

**Flexible, open architecture:** FIS provides the most complete digital ecosystem with our API library. API integration-ready widgets connect with Digital One APIs and other third-party APIs to integrate additional features, allowing you to drive innovation through our partnerships.

## The right foundation for digital banking

Digital One is composed of several connected modules that allow financial institutions to modernize their customer and associate experience at their own pace in steps or altogether with a full deployment. These must-have capabilities are the foundation for any digital banking experience. Our solution suite consists of:

### Digital One™ Studio

A highly configurable, customer-facing application that enables intuitive self-service banking online, via a tablet or a mobile device.

### Digital One™ Banker Account Open

Our easy-to-use solution for associates to open new accounts in a branch or through the call center in minutes.

### Digital One™ Online Account Open

Consumers and businesses can open new accounts in minutes online or via a mobile app.

### Digital One™ Banker Sales & Service

A feature-rich application that allows associates to perform all sales, service and account origination on a tablet or traditional desktop.

### Digital One™ Business

Digital business banking with information reporting and money movement, fraud and risk management tools, and integration to treasury management services.

### Digital One™ Teller

An interactive and comprehensive solution for monetary transaction processing, cash management and reporting.

### Digital One™ Commercial

Delivers digital-first business banking services at scale with market-leading payments functionality and a vast API library.

**Money at rest. Money in motion. Money at work.™**

Digital One sets the foundation for modern digital banking. Our **technology** powers the global economy across the money lifecycle.

### Money at rest

Unlock seamless integration and human-centric digital experiences while ensuring efficiency, stability, and compliance as your business grows.

### Money in motion

Unlock liquidity and flow of funds by synchronizing transactions, payment systems, and financial networks without compromising speed or security.

### Money at work

Unlock a cohesive financial ecosystem and insights for strategic decisions to expand operations while optimizing performance.
